Description

Russian Observation Binoculars, 10 X 80
A pair of ex-military Russian observation binoculars mounted on a modern aluminium gimble and vintage adjustable wooden tripod. The binoculars with 45º incline eyepieces with excellent clear optics. The eyepieces can be adjusted for focus and the distance between your eyes with a turn of a knob. This is a very fine pair of slim binoculars with a highly polished finish, giving it a stunning sculptural look.
The measurements are without the tripod.
