REF: 27491

Height: 28 cm (11")

Diameter: 15.5 cm (6.1")

Description

Vintage Glass Lemonade Jug with Cooler.
A very nice large lemonade jug with original internal cooling insert, this is the ideal way to keep your beverages chilled. The glass insert is filled with ice and put in place thus cooling the liquid inside, be it lemonade, orange juice or even Pimms, without the ice melting and diluting your drink. The glass pitcher is with plated handle, spout with removable filter and hinged lid. The original internal glass insert is secured in place by a quarter turn of the plated lid, the lid opens so the glass tube can be filled with ice.
We have an identical Lemonade Jug to this one if you need a pair, stock No. 27490.
