

Hardy's 'Perfect' Trout Fly Fishing Reel

Hardy Bros.

Sold

REF: 30197

Depth: 3 cm (1.2")

Diameter: 9 cm (3.5")

Description

Trout Fly Fishing Reel, Hardy Perfect 3?".

A good Hardy Perfect Trout fly reel with Bakelite handle, brass foot, rim tension screw and constant check mechanism. The revolving front plate marked 'Made by Hardy Bros. Ltd., Alnwick, England. The "PERFECT" 3?'.
A great usable reel still with most of the original finish.

The 3 cm depth shown is without handle, handle is an extra 1.8 cm.

There are some product information images taken from old Hardy catalogues. The "Perfect" reel is made of "Alumin" in three solid parts (the line drum, frame and revolving plate). They are fitted with ball-bearings and are almost frictionless. The check work is our Patent Compensating design, which may be regulated to brake fish, or when desired "striking" can be done direct from the reel, the tension being increased or decreased at the pleasure of the user according to the fineness of the tackle. The great advantage of the regulator is that, when properly adjusted, breakages, through too hard striking, do not occur.
