Description

The Clubmaker's Art: Antique Golf Clubs and Their History - Second Edition (Revised & Expanded)

A true masterpiece of golf literature, The Clubmaker's Art by Jeffery B. Ellis is widely regarded as the most comprehensive and beautifully produced book ever written on antique golf clubs.

This Special Limited Edition, No. 53 of only 250 copies, is signed by the author with the leather bound two-volume set presented in its elegant matching slipcase. This volume was published in 2003 and represents the revised and expanded second edition of Ellis's acclaimed 1997 original - now featuring even more content, photography, and research.

Across its lavishly illustrated pages, the work showcases over 1,250 full-colour photographs depicting the world's most valuable, rare, and historically significant golf clubs, alongside detailed descriptions of hundreds more. Ellis's meticulous research, drawn from original source material, documents not only the clubs themselves but also the craftsmen, inventors, and players who shaped golf's rich heritage.

Covering every major category - from long-nose woods and early irons to patent clubs, alignment aids, shafts, and beyond - The Clubmaker's Art is both a definitive reference for collectors and a stunning coffee-table centrepiece for any lover of the game.

An essential addition to any serious golf library, this magnificent edition celebrates the artistry, innovation, and enduring beauty of golf's most iconic instrument - the club.
