Description

An Original BSA Barn Find.

A great BSA 500cc motorcycle, in 'Gold Star' look. This bike has been tucked away since 2001, which was the last time that it was taxed. It has been purchased direct from the person who last rode it, having been put away and left with restoration in mind.

The bike has a 1950/51 all alloy competition engine with number ZB.34.A.2276 and a 1956 frame with chassis number EB31.1052.

The engine oil has been changed, the oil pump has been checked, engine starts easily and has a great sound. There is some smoke so it will need to be checked over. This is a great bike for a restoration project. It could be completely restored or just a tidy up to look like a Gold Star.
