## Description

Antique Telescopic Cyclists Cup.
A cyclists telescopic cup made up of five graduating rings to form a relatively large cup with a turned over lip. The Victorian collapsible travel, bicycle cup has an embossed lid with a charming scene of two cyclists on a tandem (one male and one female) passing a stone mile marker, 10 miles To, and the words "Cyclist's Cup". The base of the cup is inscribed "Made in USA, pat'd Feb. 23. 97". The lid is a firm fit.

Height of cup when open 7 cm .
