

Large Weathered Antlers

Sold

REF: 26214

Height: 107 cm (42.1")

## Description

Vintage Taxidermy, Large Antlers.

A fantastic pair of large 14 point antlers. The antlers have faded and weathered to a excellent white and chalky colour. Most probably continental red deer stag antlers which could be adapted for wall hanging but look great as they are displayed on a piece of furniture.. The colour and size of these antlers give them a good sculptural appearance.

The Continental Painted Pine Chest is sold.
