

Telescopic Surveyors Measuring Stick

Sold

REF: 27710

Height: 427 cm (168.1")

Description

Surveyor's Telescopic 14ft Measure.

A vintage surveyor's three piece telescopic measuring stick. The measure with polished wooden body, brass fittings and classic black and red measurements.

The segments when fully extended measure 14 feet. The first segment is missing it's measurements but otherwise a great interior display piece with good patina.
