

Folding Pocket Knife with Antler Handle.

Sold

REF: 26067

Height: 20.5 cm (8.1")

Description

Folding Pocket Knife with Antler Handle.

Large locking knife with stag antler handle which feels great in the hand. It is as large as a fixed blade knife and feels as sturdy as one too! It has a strong locking mechanism with a release spring to close. The blade is made using Spanish 440 stainless steel. The blade length is 9cm and has a full flat grind with secondary bevel. The shape and size of the blade makes this a great multi-purpose knife, suited to shooting sport, deer stalking, hunting, camping and forest activities. A nicely weighted knife made in Spain.
