

Survival Knife

Sold

REF: 27543

Height: 22 cm (8.7")

Width: 4 cm (1.6")

Depth: 3 cm (1.2")

Description

Scandinavian Survival Knife.

A fine Finnish fixed blade survival knife made in the traditional northern Scandinavian way. The knife has a 10 cm blade that has a special sharp notch towards the top which is used with the firestriker steel to create sparks that can ignite tinder, paper, small shavings of wood or bark. The handle is made from a combination of curly birch, thin layers of Leather and reindeer antler. The sheath is made from wet-formed vegetable tanned leather with an additional pocket to accommodate the firestriker. It is attached to a reindeer leather belt hanger.

As we have multiple knives the image shown may not be of the exact knife you receive, the shading and graining may be slightly different.
