Description

Railway Carriage Luggage And Coat Rack.

A superb and authentic railway carriage luggage rack dating from around 1930. A wonderful, untouched example featuring cast aluminium end brackets supporting a top tier made from round tubing. The upper shelf was originally designed for luggage, whilst the lower square rod has sliding hooks intended for coats hats.

These polished racks retain their original character and charm and would have originally been found in a train carriage. A great piece of locomotive history, they now make striking and practical storage for the home, ideal for hallways, kitchens, man caves or garages as unique wall-mounted shelving.

Condition is good and solid, with wear consistent with age. Ready to mount and use.
