Description

Unusual Sportsman's Seat, Shooting Stick.

A very unusual shooting stick, sportsman's walking stick seat in great original condition. Exceptional quality with aluminium fittings and triangular leather hammock seat. This sportsman's walking-stick seat is an ideal piece of equipment for the shooter, walker or hiker. The seat is opened out by lifting the collar under the handle and the three aluminium arms will open out, the small plate at the base of the arms is rotated to stop the arms folding in. The end piece of the stick is interchangeable, from a rubber end, to a spiked end to an end with a disc to stop sinking in to soft ground when used as a seat. Maker unknown but a high quality piece.

Size shown is when in walking stick mode.
