Description

Marquetry Billiard Cue.
A full size one piece billiard cue with elaborate marquetry. The cue was made in the mid to late 1800's, probably in Europe. The cue is made of maple with the handle highly decorated with veneered points, light and dark wood stringing and decorative inlays. There are two wedges at the cue's butt, one of mother of pearl and one of wood.
A beautiful and desirable cue.
