Description

Hardy Neroda Fly Fishing Cast Box.

A round original Hardy Neroda fishing cast box made from Bakelite and designed for the tangle-free storage of mounted fishing casts. The screw lid is decorated with embossed flies on leaders. HARDY BROS Made In ENGLAND is stamped on the rear. The box contains one Xylonite cast carrier which will take two mounted casts, one on each side. There is no chance of entanglement, each cast is separated from the other, the flies are stuck into the cork square, so the hooks keep free from rust.

Hardy says about The 'Album' Mounted Cast Carrier & Damper Box in its catalogue "A handy, practical piece of equipment for the angler, made in moulded plastic. The box with ivory white Xylonite cast carriers. These will take two mounted casts, one on each side. There is no chance of entanglement, each cast is separated from the others and is in contact with a dampened felt washer. The flies do not touch the felt washer as they are stuck into the cork square, so the hooks keep free from rust".
