

Brass Salmon Fishing Reel

Sold

REF: 26776

Depth: 6 cm (2.4")

Diameter: 9.5 cm (3.7")

Description

A very unusual brass Salmon fly reel by Charles J. Heath. This reel has a crank handle on one side which multiplies 4 : 1 and a twin handle with ant foul rim on the other which is fixed, so a straight 1: 1 rotation. The inner brass plate is with holes for weight reduction.

This is a good collectors piece.
