

No.2 Leather Fives Ball

Sold

Description

Vintage Leather 'Fives' Ball.

A hand made leather ball for the game of fives or racquets. This type of small leather ball has been confused by many as an original feathery golf ball. The main obvious difference between the two types of ball is the 'Fives' ball is made up of one piece of leather sewn with four external seams, whilst the 'Feathery' has three pieces of leather with internal stitching.

The ball is approximately 1 3/4 inch in diameter (4.5 cm).
