Description

Jos Lucas Ltd. No. 31 Copper Funnel.

An early 20th century British motoring accessory with wonderful vintage character. This small copper funnel, complete with its original metal mesh strainer, was manufactured by Jos Lucas Ltd. of Birmingham, renowned for producing high-quality motoring and cycling accessories of the period.

The funnel displays a rich, well-earned patina that enhances its charm and authenticity. It bears signs of age and use, including some minor dents, yet remains free from any major damage-testament to its sturdy craftsmanship. A fine and collectable example, appealing both to vintage motoring enthusiasts and collectors of early automotive accessories.
