

Custom Built Harley Davidson

Sold

## Description

Custom Built Harley Davidson. Reg No. M73 GGK Type FXST model FLSTC. Frame No. 1HD 1BJL 45SY016328. SOLD AS SEEN. This Harley is a Heritage Softail (FSLTC) with 1340 Evo engine. It was first registered in Germany 1995 in a town near Munich ( I have the German registration papers). It was de-registered in 2001.

After that the bike was for a while in Ibiza with a Custom Harley builder, also a German who modified it to suit his customer who brought it to the UK in 2001. It has quite a few custom extras like the wider rear end, the larger tank, RST foot controls and PM front disc callipers. It has a 5 speed gearbox.

We believe that the speedo reading of 16000 km could be correct. The bike runs well and is MOT-ed to October 2016. All it needs is a little tidying up and some TLC.

Sold as seen.
