

Model Rowing boat, 4 man scull.

Sold

REF: 25748

Height: 140 cm (55.1")

Description

Miniature Model Rowing Scull.

A rare, beautifully crafted model of a four man rowing scull. The miniature model has been hand-crafted by a skilled artist and is 55" long and a true scale model of a traditional rowing boat. It is a shell built boat with a spruce frame and Canadian cedar planking and moving seat. All the materials used are the same as the original boat would have been made from. The condition is good for its age with crackled varnish, a few missing parts and the vellum covers at both ends with damage. An unusual piece indeed.
